

# Pad

Heating element for electric towel heaters with fluid heat transfer. By means of a sensor located within the heating element, the temperature is maintained constant at 70°C. The device must be connected to the mains and protected through an isolator switch. The symmetry of the device enables both right and left side coupling to the towel heater. The power supply light indication is made with an amber blue ring of pleasing appearance.

## Technical specifications

Conformity marking	<b>CE</b>
Supply voltage	230 VAC - 50 Hz
Supported power range	100 ÷ 1000 W
Operational fluid temperature	70°C ± 10%
Maximum thermal fuse temperature	152°C
Appliance class	Class I
IP protection	IPX5
Size	Diameter 28,5mm Plastic cylinder 45,0mm
Available colours	White, Chrome
